About Us

Our project's primary objective is to establish a youth homelessness shelter, providing a safe refuge, comprehensive support services, and a clear path to stability for homeless youth in our area. Our project will adhere to a structured project management approach, covering planning, execution, monitoring, and closure phases to ensure efficient resource allocation, timeline management, and the delivery of a sustainable solution. By taking on this endeavor, we aim to acquire valuable project management skills and contribute significantly to addressing a pressing issue in our community. We eagerly look forward to delving deeper into this proposal and collaborating to make a meaningful impact.

What We Do

Our project proposal centers on creating a transitional shelter specifically designed to address the issue of youth homelessness, recognizing it as an underreported and underserved crisis in our community. A substantial number of young individuals lack the necessary support and resources required to transition successfully into adulthood. This initiative will empower homeless youth aged 18-24 to cultivate the skills and resilience needed for independent, fulfilling lives. Our shelter project is inclusive and welcomes youth from diverse backgrounds, including LGBTQ+ youth, emancipated foster youth, and those with complex histories such as addiction or involvement in the juvenile justice system.

Completion: 2024

Square Footage: 7,894 SF

Construction Cost: \$1.5 million

Location: New York, New York

Clients: Homeless youth aged 18-24

Contractor: SPS Construction

Resources

Human Resources

The project team is responsible for the successful execution of the project. Our team is composed of experienced professionals with the necessary skills and expertise to complete the project on time and within budget.

Financial Resources

Our project budget is \$1.5 million. This budget includes all expenses associated with the project, including salaries, construction, software/technology, and equipment. We have allocated these resources to ensure that we are able to complete the project within budget.

Physical Resources

This project requires a number of external experts and specialized pieces of equipment. We will be using architects, electricians and IT experts. All equipment is in good working condition and has been tested and calibrated prior to install and use.

Youth Homeless Shelter

Timeline

This timeline will provide a visual representation of our project's progress and ensure that the project stays on track. Our team will be regularly reviewing and updating the timeline as the project progresses to ensure that it remains accurate and achievable.

THANK YOU!
